

第六届强子谱和强子结构研讨会

Tuesday 29 August 2023

29日下午-2: 主持: 李德民 / 郑州大学 (15:30-17:30)

| time  | [id] title                                                                                                    | presenter |
|-------|---------------------------------------------------------------------------------------------------------------|-----------|
| 15:30 | [57] Disentangling the X(3872) with Tcc                                                                       | 智 杨       |
| 16:00 | [58] The roles of the $T_{c\bar{s}}(2900)^0$ and $D^{*0}(2300)$ in the process $B^-\rightarrow D_s^+K^-\pi^-$ | 文韬 吕      |
| 16:20 | [59] Strong decays of $T_{ccs}^-(2900)^{++/0}$ as a fully open-flavor tetraquark state                        | 丁坤 连      |
| 16:40 | [60] Looking for the possible bottom-charm tetraquark state                                                   | 文颖 刘      |
