

第五届粒子物理前沿研讨会 - The Fifth Workshop on Frontiers of Particle Physics

Saturday 13 April 2024

Parallel session I (14:00-15:40)

time	[id] title	presenter
14:00	[44] Novel methods for analytic Feynman integral computation based on algebraic geometry	Dr Zihao Wu
14:25	[9] When scalar-induced gravitational waves meet pulsar timing arrays	Dr lang liu
14:50	[31] Axion-pion scattering at finite temperature in chiral perturbation theory and its influence in axion thermalization	金葆 王
15:15	[16] Axions in electromagnetodynamics and their detection	Rui-jia Zhang
