

International workshop on nuclear physics related to HIAF

Wednesday 17 April 2024

Chair: Xiaohong Zhou (08:40-10:10)

time	[id] title	presenter
08:40	[15] What can we learn from gamma-beam experiments?	Prof. Dimiter Balabanski
09:10	[16] In-beam γ -ray spectroscopy of neutron-rich Ca isotopes and possible opportunities at HIAF	Prof. Jenny Lee
09:40	[17] Possible application of collinear laser spectroscopy at HIAF for studying unstable nuclei and radioactive molecules	Prof. Xiaofei Yang
