

# Gauge Gravity Duality 2024

## Sunday 01 December 2024

Day 2: Parallel session I - Room A211 (14:20-17:30)

time	[id] title	presenter
14:20	[89] Isospectrality in hadronic bottom-up models	Miguel Angel Martin Contreras
14:50	[90] Reflected multi-entropy and its holographic dual	Yang Zhou
15:20	[135] Pattern formation from Gauge/Gravity duality	Hua-Bi Zeng
15:50	Coffee Break	
16:20	[136] On the second order quasi-normal modes for an AdS black brane	Wen-Bin Pan
16:40	[137] Quantum Corrections to Quasi-Normal Modes of Near-Extremal Black Holes	Zheng Jiang
17:00	[177] Bulk metric reconstruction by pole-skipping points	Zhen-Kang Lu
