

Gauge Gravity Duality 2024

Sunday 01 December 2024

Day 2: Parallel session II - Room A110 (14:20-17:30)

time	[id] title	presenter
14:20	[138] Fundamental string from 3D gravity , entanglement and quantum thermodynamics	Ayan Mukhopadhyay
14:50	[139] D-commuting SYK model: building quantum chaos from integrable blocks	Cheng Peng
15:20	[140] Operator Spectral Statistics, Chaos, and Asymptotic Freeness in Quantum Many-Body Systems	Viktor Jahnke
15:40	Coffee Break	
16:10	[141] Mutual information of subsystems and the Page curve of Hawking radiation	Anirban Roy Chowdhury
16:30	[142] Non-local Positivity Bounds: islands in Terra Incognita	Long-Qi Shao
16:50	[143] Renyi reflected entropy and entanglement wedge cross section with cosmic branes in AdS/BCFT	Byoungjoon Ahn
17:10	[144] Entanglement dynamics in 2d HCFTs on the curved background	Chen Bai
