

Gauge Gravity Duality 2024

Tuesday 03 December 2024

Day 4: Parallel session III - Room A120 (14:20-18:10)

time	[id] title	presenter
14:20	[169] Non-extremal Island in de Sitter Gravity	Shan-Ming Ruan
14:50	[170] Regularity of black holes in non-perturbative quantum gravity	Alexey Koshelev
15:20	[171] Holographic spin alignment for vector mesons	Yan-Qing Zhao
15:50	Coffee Break	
16:10	[172] Holography from Conformal Field Theory	Robert de Mello Koch
16:40	[173] Construction of Superconducting dome and Quantum Critical Region	Yunseok Seo
17:10	[174] Holographic supersolids--non-equilibrium phase transition and topological defects formation	Peng Yang
17:30	[175] DeepCosmo: A New Method of Neural Network Trained with Tetrad-Based Riemann Curvature Tensor Calculation for Solving Einstein Field Equations in AdS/CFT Duality	Chenqingshui Huang
17:50	[176] On $AdS_3/ICFT_2$ with a dynamical scalar field located on the brane	Chuan-Yi Wang
