

第五届中国格点量子色动力学研讨会

Friday 10 October 2025

主会三 (14:00-15:30)

-Conveners: 倩 王

| time  | [id] title                                                                               | presenter  |
|-------|------------------------------------------------------------------------------------------|------------|
| 14:00 | [50] Exotic hadrons with heavy quarks: A short review and the interplay with Lattice QCD | Prof. 孟林 杜 |
| 14:30 | [17] Charmed $P \rightarrow V$ semileptonic decay from lattice QCD                       | Prof. 雨 孟  |
| 15:00 | [51] Extracting Hermitian and regular hadron potentials from HAL QCD wave functions      | Prof. 璐 孟  |
