

LaMET@LPC 2026

Friday 17 April 2026 - Sunday 19 April 2026

Book of Abstracts

Contents

Bottom physics from CLQCD ensembles	1
Calculation of TMD gluon PDF and strange quark PDF from lattice QCD	1
DA moments from local and non-local matrix elements	1
Discussion on Spin, GPDs, TMDs	1
Discussion on flavor-dependent quark PDFs and gluon PDFs	1
Discussion on lattice ensembles, HQET, AI, etc.	1
From PhysMaster to LQCDMaster	1
From PhysMaster to LQCDMaster	1
Gluon helicity PDF of the nucleon from lattice QCD	2
Gradient Flow of Baryon DA in LaMET	2
Lattice QCD Determination of the TMD PDFs	2
Obtaining the TMD Intrinsic Soft Function with Lattice QCD	2
Overview of LaMET	2
Recent Progress and Research Plan for Baryonic Structures	2
Spin structure and GPDs	2
Unpolarized gluon PDF of the nucleon from lattice QCD	3

21

Bottom physics from CLQCD ensembles

10

Calculation of TMD gluon PDF and strange quark PDF from lattice QCD

24

DA moments from local and non-local matrix elements

17

Discussion on Spin, GPDs, TMDs

12

Discussion on flavor-dependent quark PDFs and gluon PDFs

22

Discussion on lattice ensembles, HQET, AI, etc.

23

From PhysMaster to LQCDMaster

19

From PhysMaster to LQCDMaster

14

Gluon helicity PDF of the nucleon from lattice QCD

20

Gradient Flow of Baryon DA in LaMET

16

Lattice QCD Determination of the TMD PDFs

15

Obtaining the TMD Intrinsic Soft Function with Lattice QCD

1

Overview of LaMET

18

Recent Progress and Research Plan for Baryonic Structures

13

Spin structure and GPDs

11

Unpolarized gluon PDF of the nucleon from lattice QCD
