Neutrino Scattering: Theory, Experiment, Phenomenology (vSTEP 2026)

Saturday 21 November 2026

session 4: Hanlin B102 (15:35-17:15)

-Conveners: Jiangming Yao

time	[id] title	presenter
15:35	[9] Lattice Calculations of Neutrinoless Double Beta Decay	Ziyu Wang
16:00	[10] New Modes in Scalar Mediated Two-Neutrino Double Beta Decay	Zhong Zhang
16:25	[11] Radiative corrections in neutral-current (anti)neutrino-nucleon elastic scattering at GeV energies	Yi Chen
16:50	[12] Coherent Elastic Neutrino-Nucleus Scattering: From Effective Field Theory to Numerical Calculations	Feng-Jie Tang
